

DECAHEDRON VENTURES FUND I

Deep Tech, Space, and Quantum Fund

Investing at the Frontier of Strategic Technologies

Seed – Series A | Target Fund Size: $100M **|** 2026 **Vintage**

VENTURE CAPITAL ENGINEERING FOR FRONTIER DEEP TECHNOLOGIES

DISCLAIMERS

This presentation is not, and nothing in it should be construed as, an offer, invitation, or recommendation with respect to any securities issued by Decahedron Fund I LLC, or its manager, Decahedron GP I LLC (together the "Issuer"), or an offer, invitation, or recommendation to sell, or solicitation of an offer to purchase, any of the Issuer's securities in any jurisdiction. This presentation is not intended to be relied on as advice to investors or potential investors and does not take into account the investment objectives, financial situation, or needs of any investor. All investors should consider such factors in consultation with a professional advisor of their choosing when deciding if an investment is appropriate.

The Issuer has prepared this presentation based upon information available to it, including information from public sources that have not been independently verified. No representation or warranty, express or implied, is provided with respect to the fairness, accuracy, correctness, completeness, or reliability of the information, opinions, or conclusions expressed herein.

Any projections contained herein are included for illustrative purposes only and should not be considered a representation of the Issuer's expected performance. Projections are inherently subject to substantial and numerous uncertainties and to a wide variety of significant business, economic and competitive risks, and the assumptions underlying the projections may be inaccurate in any material respect. Therefore, the actual results achieved may vary significantly from the forecasts, and the variations may be material.

DECAHEDRON VENTURES

OUR CORE THESIS

We invest in companies at the intersection of physics, compute, and autonomy—where breakthroughs create durable, defensible, global-scale businesses.

Investment Philosophy: Invest in early and growth-stage companies that demonstrate strong differentiation factors and breakthrough innovation, with the potential to reshape and transform entire industries and **at least $1M ARR**

WHY NOW

- Techno-Industrial Renaissance (2025–2035 decade)
- Strategic prioritization of AI, autonomy, space, semiconductors, and quantum
- AI reducing engineering & prototyping cycles by 10×
- Government & enterprise procurement shifting to commercial-first models

MISSION

Back technical founders building the strategic technology leaders of the 2030s.

SPACE

- Space systems & platforms
- Orbital & ground infrastructure
- Space based communications

DEEP TECH

- Robotics, autonomy, advanced sensing
- Custom silicon, photonics, new compute architectures
- Industrial/energy resiliency, materials systems

QUANTUM

- Photonics & optical networks
- Quantum-enabled sensing and communications
- Optical interconnects for AI compute
- High-bandwidth, low-latency data transport

FOCUS AREAS

Decahedron Ventures engineers capital for the systems that move energy, data, and intelligence across Earth and orbit

MARKET CONTEXT & TIMING

A structural opportunity across three frontiers

SPACE

- Launch costs down 20×
- Real-time EO, RF, comms, in-orbit compute → software-like business models
- Government Backed programs with more than 50B In investment

DEEP TECH

- Next-gen compute, robotics, autonomy, advanced materials
- Industrial, manufacturing & Government Aligned

QUANTUM

- Quantum Chips
- Near-term applications emerging in sensing, photonics, networking, and chips.
- National Security Interest

TECHNICAL FILTER

We operate where technical reality meets commercial constraints, filtering out non-viable technologies before they reach traditional venture markets.

ECOSYSTEM INTELLIGENCE

Our proximity to research programs, infrastructure partners, and founder-led technical communities provides early, high-fidelity intelligence on which systems can scale in real-world environments.

CAPITAL TIMING DISCIPLINE

We align technical insight, market readiness, and capital discipline to invest before valuation inflation and narrative risk set in.

WHY US?

Decahedron Ventures is positioned at the front edge of institutional venture capital, where frontier technologies are first validated, de-risked, and shaped into durable, investable companies.

MEET THE TEAM

SOURCING & COMPETITIVE ADVANTAGE

Strategically Positioned at the Convergence of Frontier Technology Ecosystems

NVIDIA INCEPTION PROGRAM

NASA TECHNOLOGY TRANSFER PROGRAM

Nasdaq Entrepreneurial Center

PLUG AND PLAY

Startupbootcamp

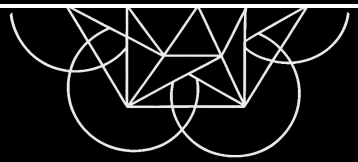

Advancing Photonics Technologies

Network of Venture Capital Firms - Relation with 10+ Investment Firms

Khalia is honored on the Nasdaq tower in Times Square, December 2025

INVESTMENT PROCESS

At Decahedron Ventures, we believe in the power of mathematical precision to unlock infinite possibilities.

Inspired by the ten faces of a dodecahedron, our investment approach is built on identifying ten (10+) transformative factors within startups – signals that highlight innovations positioned to deliver exponential growth.

All investments undergo rigorous evaluation by our investment committee using our proprietary assessment matrix.

OUR INVESTMENT CRITERIA

10 FACTORS WE LOOK FOR	
TEAM	We look for technically capable, mission-driven teams with the curiosity and resilience required to build frontier systems.
ADVANTAGES	Architectural differentiation, performance step-change, cost advantage, integration advantage, or time-to-market leadership.
IP & TECHNOLOGY	A clear definition of the underlying technology with demonstrated technical rigor, scalability potential, and performance advantages.
VALIDATION	Demonstrated evidence that the technology performs as intended beyond the lab.
STRATEGIC PARTNERS	Existing or potential relationships that help founders access customers, partners, and deployment opportunities.
ROADMAP	A credible vision for how the company can scale, integrate into larger ecosystems, or become strategically valuable over time.
REVENUE POTENTIAL	A clear path toward repeatable, durable revenue models aligned with infrastructure or long-term customers.
SUPPLY CHAIN	A realistic approach to sourcing, manufacturing, and scaling technology as the company grows.
STRATEGY	Awareness of what it takes to move from prototype to real-world use — and openness to support in navigating that journey.
CAPITAL EFFICIENCY	A thoughtful plan for using capital to achieve meaningful technical and commercial milestones efficiently

PORTFOLIO CONSTRUCTION

- Target Fund Size: $100M
- Initial Checks: $2–$10M
- Ownership Goal: 10–15% at entry
- Portfolio Size: 20–30 companies

Criteria

We lead Seed+ and early Series A rounds in capital-intensive deep tech companies that already demonstrate early commercial validation (often $1M+ ARR or equivalent contracted revenue)

Reserves Strategy

50–70% of fund for follow-ons

Double down on top 20–30% of performers

Maintain pro rata in breakout companies through B/C rounds

Recycling

Reinvest early liquidity (e.g., small early exits, non-core M&A)

THE OFFERING

Limited liability company membership interests in the Fund (the "Interests") are being offered pursuant to the terms of a confidential Private Placement Memorandum, the subscription agreement, and the limited liability company operating agreement of the Fund.

- Targeted Fund Size: $100 million.
- Sponsor's Commitment: $1 million (1% of Targeted Fund Size).
- Minimum Investment: $100,000
- Committed Investment Due at Closing: 50% (except as may be mutually agreed).

All investors in the Fund must certify that they are accredited investors, eligible for this type of illiquid investment.

The interests in the Fund will not be registered under the Securities Act of 1933, as amended (the "Securities Act") in reliance upon exemptions contained in 506(b) of Regulation D as promulgated under the Securities Act. In addition, the interests will not be registered under any state securities laws in reliance on exemptions from registration. Such interests are subject to restrictions on transferability and resale and may not be transferred or resold except as permitted under applicable state and federal securities laws pursuant to registration or an available exemption.

FUND ORGANIZATION AND OPERATIONS

Managing Member:	Decahedron GP I LLC
Investment Manager:	Decahedron Management LLC
Fund Expenses:	The Managing Member and Investment Manager are responsible for all their own normal routine operating expenses. The Fund is responsible for all expenses related to its business and operation, including any third-party fundraising expenses.
Reinvestment/Recontribution:	Proceeds of an investment constituting a return of capital may be reinvested by the Managing Member during the Investment Period
Management Fee	The Fund will pay the Investment Manager an annual fee of 2 percent of committed funds during the investment period, and 1.5 percent thereafter.
Carried Interest	The Managing Member will earn carried interest in an amount equal to 20 percent of the gains of the Fund.
Managing Member's Investment	The Managing Member will invest in the Fund an amount equal to one percent of the total amount invested.
